

Myton Utah
Feb. 23, 1935

Hon State Engineer.
Salt Lake City Utah

Dear Sir:

In referande to your letter of recent date, I have had Mr. Hoyt set a date for a meeting with the Dry Gulch Irrigation Co. for March. 2, 1935 to try and come to an agreement on the Montez Creek filings and water division, but Mr. Hoyt wished me to write you in regards to a few particulars, and for you to send a copy of your answer to him.

1.

My certificate reads that my water is filed for use April 1. Mr. Hoyt wishes a copy of the date of use of all filings on Montez creek, and who is entitled to the water until that time.

2. What is to be done about dams and water diversion in low water time by parties without filings in Montez Creek.

3. If you will give Mr. Hout power to compel all filing holders on Montez creek to put in diversion headgates that can be closed and locked in low water time, and also spillways which can be opened instead of some present dirt dams.

Please send answer before Saturday Mar. 2, 1935 if possible.

Yours Resp.

Ira S Bryant
